

Problem-Solution Fit

Date	27 June 2026
Team ID	XXXXXXX
Project Name	Rising Waters
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviours, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S) [CS] Residents and households in flood-prone regions Local disaster management authorities and NGOs Students and researchers studying flood patterns	6. CUSTOMER LIMITATIONS (e.g. budget, devices) [CL] Limited or intermittent internet access in rural flood zones Low digital literacy among some residents Reliance on basic smartphones with limited data plans	5. AVAILABLE SOLUTIONS PROS & CONS [AS] Government flood bulletins: broad reach, but generic and often delayed News/TV alerts: familiar, but not localized or real-time Rising Waters: localized, real-time predictions, but requires internet access
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] No easy way to check localized flood risk in advance; recurring every monsoon season	9. PROBLEM ROOT / CAUSE [RC] Flood data is fragmented across agencies and not translated into an accessible, predictive, real-time tool for the public	7. BEHAVIOR + ITS INTENSITY [BE] Residents check weather and river-level updates frequently and with high urgency during monsoon season

3. TRIGGERS TO ACT [TR] Heavy rainfall warnings, news of rising river levels, or a past flood experience	10. YOUR SOLUTION [SL] Rising Waters: a Flask-based web app combining an ML flood-prediction model with secure accounts, a real-time chatbot for safety guidance, and automated email alerts	8. CHANNELS OF BEHAVIOR [CH] ONLINE Weather apps, social media, WhatsApp groups, government portals
4. EMOTIONS BEFORE / AFTER [EM] Before: anxiety and uncertainty about flood risk After: reassurance and a sense of preparedness from having timely, localized information		OFFLINE Community announcements, local disaster-management notices, word of mouth
