

Project Demo Planning

Date	2 July 2026
Team ID	XXXXXX
Project Name	Rising Waters
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Overview of flood risks and the need for an accessible, ML-based prediction tool	3	Tati Chiranjeevi
2	Solution Overview & Architecture	Walk through the system architecture: Flask backend, ML model registry, and PostgreSQL database	4	Akshita Manik Chandra
3	Authentication & Profile Demo	Show signup/login (email and Google OAuth) and profile management with OTP email change	3	Ganesh Parcha
4	Flood Prediction Demo	Enter input values (rainfall, temperature, humidity, etc.) and generate an ML-based flood risk prediction	4	Akshita Manik Chandra
5	Dashboard & Location Monitoring Demo	Show the dashboard stats, saved locations with live weather, and an automated alert email	4	Mohammed Salman Tanveer
6	AI Flood Bot & Q&A	Demonstrate the Gemini-powered chatbot, then answer questions and summarize impact	3	Borra Koushik Sri Sai

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Highlight flood risks and the need for an easy-to-use prediction and alerting tool
2	Solution Overview	Walk through the architecture: Flask backend, ML models, PostgreSQL database, and deployment on Render
3	Live Feature Demonstration	Combine authentication, prediction, dashboard, location monitoring, and chatbot demos in sequence
4	Q&A Session	Address questions on model accuracy, data sources, and scalability
